**CAUTION: TRAVEL THESE TRAILS AT YOUR OWN RISK**

The Backcountry Trails are marked in RED on the map. These rough, narrow, ungraded trails are not patrolled and once you leave the Sovereign Lake Trail System, you are on your own. It is recommended that your group be self sufficient and have enough gear to be comfortable for an extended stop and be able to make any required small repairs. There is no easy way out and any rescue will be arduous and time consuming. Wider skis and pole baskets are recommended. Differing snow conditions will greatly affect travel time and the effort required. The Kennedy Trail takes 2½ to 3½ hrs and the Alder Trail will add another 1½ to 2½ hrs. There are steep sections requiring care. Please respect the other users of the backcountry and do not ski on the adjacent snowshoe and snowmobile trails.

You will require a Silver Star Day Pass to access the Alder Point Ski Trail.
